## THE NORTHLAND DIFFERENCE

Many of our dedicated craftsmen have been with us for years. Our culture is one of community and appreciation. We are committed to fostering a safe, reliable and injury-free workplace and believe the benefits can be seen in our consistent products and happy customers, which include Marriott, Wyndham, Hampton Inn, Best Western, Shilo, Hilton and BHG as well as many independent properties and national park facilities, including Yellowstone, Grand Canyon, and Glacier. We also believe in flexibility — no minimum orders are required, and you can make adjustments and enhancements to most of our furniture pieces. It's just how we do things here in the Pacific Northwest.

## CUSTOM BUILT IN THE USA

All furniture is designed, built and shipped from our 42,000 square foot facility in the heart of Central Oregon. If you have a custom design and color in mind, our experts can work with you to create your special piece or collection. We can also work within your budgetary parameters to build furniture that perfectly meets your needs.

## NORTHWEST CRAFTSMANSHIP

The Northwest has a style all its own.

Lots of natural materials, especially wood. Earthy colors. Clean lines. Just as our Northland name implies, we are a part of this land — our office and manufacturing facility is located in beautiful Bend, Oregon.
